

## Greek Alphabet

| Name of Letter | Capital | Lower Case | Transliteration | Name of Letter | Capital | Lower Case | Transliteration      |
|----------------|---------|------------|-----------------|----------------|---------|------------|----------------------|
| alpha          | Α       | α          | a               | nu             | Ν       | ν          | n                    |
| beta           | Β       | β          | b               | xi             | Ξ       | ξ          | x                    |
| gamma          | Γ       | γ          | g               | omicron        | Ο       | ο          | o short              |
| delta          | Δ       | δ          | d               | pi             | Π       | π          | p                    |
| epsilon        | Η       | ε          | e short         | rho            | Ρ       | ρ          | r                    |
| zeta           | Ζ       | ζ          | z               | sigma          | Σ       | σ or ς     | s                    |
| eta            | Η       | η          | e long          | tau            | Τ       | τ          | t                    |
| theta          | Θ       | θ          | th              | upsilon        | Υ       | υ          | y                    |
| iota           | Ι       | ι          | i               | phi            | Φ       | φ or ϕ     | f                    |
| kappa          | Κ       | κ          | k, c            | chi            | Χ       | χ          | ch as in German echt |
| lambda         | Λ       | λ          | l               | psi            | Ψ       | ψ          | ps                   |
| mu             | Μ       | μ          | m               | omega          | Ω       | ω          | o long               |
