

Enteral feeds, Child: 1 kcal/mL and less than 4 g protein/100 mL (product list continued)									
Not suitable for use in child under 1 year unless otherwise stated									
Product	Formulation	Energy	Protein	Carbohydrate	Fat	Fibre	Special Characteristics	ACBS Indications	Presentation & Flavour
Paediasure® Peptide (Abbott Laboratories Ltd)	Liquid (sip or tube feed) per 100 mL	420 kJ (100 kcal)	3 g whey protein and caseinate	13 g (sugars 2.98 g)	4 g (MCT 50%)	Nil	Gluten-free Residual lactose	Borderline substances standard ACBS indications p. 1054 and growth failure in child 1-10 years, body-weight 8-30 kg	PaediaSure Peptide liquid: 200 ml = £4.22; 500 ml = £11.71
Similac® High Energy (Abbott Laboratories Ltd)	Liquid (sip or tube feed) per 100 mL	419 kJ (100 kcal)	2.6 g cows' milk and whey protein	10.1 g (sugars 5.6 g)	5.2 g	0.4 g	Gluten-free Contains lactose and soy oil	Increased energy requirements, faltering growth, and/or need for fluid restriction, in child body-weight up to 8 kg	Similac High Energy liquid: 60 ml = £0.73; 200 ml = £2.44
Tentrini® (Nutricia Ltd)	Liquid (tube feed) per 100 mL	420 kJ (100 kcal)	3.3 g whey protein and caseinate	12.3 g (sugars 0.8 g)	4.2 g	Nil	Gluten-free Residual lactose Contains fish oil	Borderline substances standard ACBS indications p. 1054 and growth failure in child 7-12 years, body-weight 21-45 kg	Tentrini liquid: 500 ml = £6.60
Tentrini® Multi Fibre (Nutricia Ltd)	Liquid (tube feed) per 100 mL	420 kJ (100 kcal)	3.3 g whey protein and caseinate	12.3 g (sugars 0.8 g)	4.2 g	1.1 g	Gluten-free Residual lactose Contains fish oil	Borderline substances standard ACBS indications p. 1054 except bowel fistula, and growth failure in child 7-12 years body-weight 21-45 kg	Tentrini Multifibre liquid: 500 ml = £7.26
HYDROLYSATE FORMULA									
Product	Formulation	Energy	Protein	Carbohydrate	Fat	Fibre	Special Characteristics	ACBS Indications	Presentation & Flavour
Nutrini® Peptisorb (Nutricia Ltd)	Liquid (tube feed) per 100 mL	420 kJ (100 kcal)	2.8 g whey protein hydrolysate	13.7 g (sugars 0.8 g)	3.9 g (MCT 46%)	Nil	Gluten-free Residual lactose	Borderline substances standard ACBS indications p. 1054 and growth failure in child 1-6 years, body-weight 8-20 kg	Nutrini Peptisorb liquid: 500 ml = £11.70
Peptamen® Junior (Nestle Health Science)	Liquid (tube feed) per 100 mL	420 kJ (100 kcal)	3 g whey protein hydrolysate	13.2 g	4 g (MCT 60%)	Nil	Gluten-free Residual lactose Hydrolysed with pork trypsin	Short bowel syndrome, intractable malabsorption, proven inflammatory bowel disease, bowel fistula, in child 1-10 years	Peptamen Junior liquid: 500 ml = £7.32
	Standard dilution (22%) of powder (sip or tube feed) per 100 mL	420 kJ (100 kcal)	3 g whey protein hydrolysate	13.8 g	3.85 g (MCT 60%)	Nil	Gluten-free Residual lactose Hydrolysed with bacterial trypsin		Peptamen Junior powder: 400 gram = £19.21
Powder provides: protein 13.7 g, carbohydrate 62.9 g, fat 17.5 g, energy 1910 kJ (457 kcal)/100 g.									
Enteral feeds, Child: More than 1 kcal/mL and less than 4 g protein/100 mL									
Not suitable for use in child under 1 year unless otherwise stated									
Product	Formulation	Energy	Protein	Carbohydrate	Fat	Fibre	Special Characteristics	ACBS Indications	Presentation & Flavour
Fortini® (Nutricia Ltd)	Liquid (sip feed) per 100 mL	630 kJ (150 kcal)	3.4 g cows' milk	18.8 g (sugars 7.4 g)	6.8 g	Nil	Gluten-free Residual lactose	Disease-related malnutrition and growth failure in child 1-6 years, body-weight 8-20 kg	Fortini liquid: strawberry, vanilla 200 ml = £3.59
Fortini® Multifibre (Nutricia Ltd)	Liquid (sip feed) per 100 mL	630 kJ (150 kcal)	3.4 g cows' milk	18.8 g (sugars 7.4 g)	6.8 g	1.5 g	Gluten-free Residual lactose	Disease-related malnutrition and growth failure in child 1-6 years, body-weight 8-20 kg	Fortini Multi Fibre liquid: banana, chocolate, strawberry, unflavoured, vanilla 200 ml = £3.76
