

toxicity may be related to higher plasma drug levels, with most data coming from patients treated with voriconazole.<sup>46</sup>

### 9.5 Problems

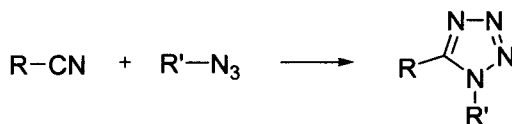

9.5.1 Propose a reasonable mechanism for the following transformation<sup>47</sup>:

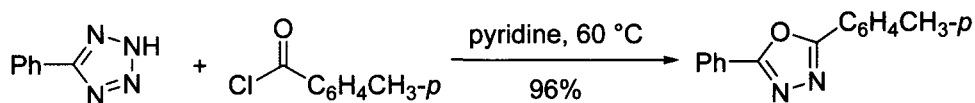

9.5.2 Propose a reasonable mechanism for the thermal transformation of triazole to carbazole<sup>48</sup>:

9.5.3 Propose a reasonable mechanism for the following transformation<sup>49</sup>:

9.5.4 Propose a reasonable mechanism for the following transformation<sup>25</sup>:

9.5.5 Determine the structures of A–C from the following transformations<sup>50</sup>:
