## CONTENTS

Introduction.....	52
Formulation Development Strategies.....	54
Patent Search(es).....	54
Formulation Patents.....	54
Combination Patents.....	54
Use Patents.....	55
Literature Search.....	55
Regulatory Strategy.....	55
Sourcing of the Active Raw Material(s).....	56
Alternate Vendor Sourcing.....	58
Formulation Development.....	59
Equipment Selection for Formulation Development.....	62
Assessment of the Final Formulation and Exhibit-Batch Production.....	63
Development Report.....	64
Master Manufacturing Document.....	66
Exhibit-Batch Production.....	67
Quality-by-Design Approaches.....	68
Appendix 4.A1: Product Development Flow Chart.....	76
Appendix 4.A2: Description of the Formulation Development and Subsequent Exhibit-Batch Manufacture of a Generic Solid Oral Dosage Form (Tablet).....	78
Acquisition of API and Technical Package Following Comprehensive Literature and Patent Reviews.....	78
Preformulation Studies on the API.....	78
Innovator Product Characterization.....	78
Formulation Development.....	79
Manufacturing Method.....	80
Range Studies—Investigation of Formulation and Process Variables.....	81
Formulation Variables.....	81
Process Variables.....	85
Similarity and Difference Factors.....	87
References.....	87
