# 3 Analytical Methods Development and Methods Validation for Oral Solid Dosage Forms

*Quanyin Gao and Dilip R. Sanvordeker*

## CONTENTS

Introduction.....	32
Method Development and Its Importance.....	32
Method Development.....	34
API Test Methods.....	35
In-Process Test Methods.....	37
Finished Dosage Form Test Methods.....	37
Method Validation.....	40
Objectives of Method Validation.....	40
Method Validation Requirements.....	40
Compendial Analytical Procedures.....	40
Noncompendial Methods.....	41
Development of a Validation Protocol.....	42
Validation Planning and Protocol Execution.....	46
Instrumentation Selection.....	46
Standards Qualification and Handling.....	47
Optimization of the Experimental Sequence for Efficiency.....	47
Resources and Timelines.....	47
Validation Report.....	47
Method Equivalency Study.....	47
Method Transfer.....	48
Objective of the Method Transfer.....	48
Documentation of Method Transfer.....	48
Method Transfer Protocol.....	48
Method Transfer Report.....	48
Additional Validation and Revalidation of the Test Method.....	49
Summary and Conclusions.....	49
References.....	49
