

DRUG STABILITY

NAZARIO D. RAMIREZ-BELTRAN,¹ HARRY RODRIGUEZ,² AND
L. ANTONIO ESTÉVEZ¹

¹*University of Puerto Rico, Mayagüez, Puerto Rico*

²*Cordis LLC, a Johnson & Johnson Company, San German, Puerto Rico*

Contents

- 1 Overview of Stability
 - 1.1 Introduction
 - 1.2 Regulatory Requirements
 - 1.3 Stability and Shelf Life
 - 1.4 Short- and Long-Term Stability Studies
 - 1.5 Statistical Considerations
 - 2 Design of Stability Studies
 - 2.1 Introduction
 - 2.2 Basic Design Considerations
 - 2.3 Design of Stability Studies
 - 3 Long-Term Stability Analysis
 - 3.1 Introduction
 - 3.2 Drug Shelf Life for Single Batch
 - 3.3 Drug Shelf Life for Multiple Batches
 - 3.4 Shelf Life Estimation for Multiple Factors
 - 4 Short-Term Stability Analysis
 - 4.1 Introduction
 - 4.2 Chemical Reaction Kinetics
 - 4.3 Degradation Data Evaluation at Accelerated Conditions
 - 4.4 Preliminary Shelf Life Calculation from Stressed Data
 - 5 Concluding Remarks
- Appendix Computer Programs
- References
