

PRECLINICAL DRUG DEVELOPMENT PLANNING

NIRMALA BHOGAL, ROBERT COMBES, AND MICHAEL BALLS
FRAME, Nottingham, United Kingdom

Contents

- 1 Introduction
 - 1.1 Overview of Objectives
 - 1.2 Drug Development Models
 - 1.3 Information Required Prior to Drug Authorization/Approval
- 2 Finding New Drug Targets
 - 2.1 Background
 - 2.2 Impact of New Technologies on Target Discovery
 - 2.3 Data Mining
- 3 Traditional Approaches to Drug Discovery and Development
 - 3.1 Hit to Lead
 - 3.2 Pharmacokinetics
- 4 Special Considerations for Novel Therapeutic Classes
 - 4.1 New Classes of Therapeutic Agents: A New Drug Development Strategy?
 - 4.2 Protein-Based Therapeutics
 - 4.3 Gene Therapeutics
 - 4.4 Nanomedicines
- 5 *In Vitro* Assays: Applications in Safety Pharmacology
 - 5.1 Background
 - 5.2 QT Prolongation
 - 5.3 ICH Guidelines
