

CARCINOGENICITY STUDIES

SHAYNE COX GAD

Gad Consulting Services, Cary, North Carolina

Contents

- 1 Introduction
- 2 Regulatory Requirements and Timing
- 3 Species and Strain
- 4 Animal Husbandry
- 5 Dose Selection
 - 5.1 Number of Dose Levels
 - 5.2 Number of Control Groups
 - 5.3 Criteria for Dose Selection
- 6 Group Size
- 7 Route of Administration
- 8 Study Duration
- 9 Survival
- 10 Endpoints Measured
- 11 Statistical Analysis
- 12 Transgenic Mouse Models
 - 12.1 The Tg.AC Mouse Model
 - 12.2 The Tg.rasH2 Mouse Model
 - 12.3 The TSP p53^{+/-} Mouse Model
 - 12.4 The XPA^{-/-} Mouse Model
- 13 Interpretation of Results
 - 13.1 Criteria for a Positive Result
 - 13.2 Statistical Analysis
 - 13.3 Methods to Be Avoided
 - 13.4 Use of Historical Controls
 - 13.5 Relevance to Humans
- 14 Conclusion
 - References
