

AEROSOL DRUG DELIVERY

MICHAEL HINDLE

Virginia Commonwealth University, Richmond, Virginia

Contents

- 1 Introduction
- 2 Human Respiratory Tract and Aerosol Particle Deposition
 - 2.1 Human Respiratory Tract
 - 2.2 Mechanisms of Particle Deposition
 - 2.3 Pharmacokinetics
- 3 Therapeutic Indications for Aerosol Delivery
 - 3.1 Current Applications
 - 3.2 Future Applications
- 4 Aerosol Drug Delivery Devices
 - 4.1 Introduction
 - 4.2 Characteristics of Ideal Delivery Device
- 5 Metered Dose Inhalers
 - 5.1 Introduction
 - 5.2 Metered Dose Inhaler and HFA Reformulation
 - 5.3 Propellants
 - 5.4 Excipients
 - 5.5 Valves
 - 5.6 Actuators
 - 5.7 Canisters
 - 5.8 Breath Actuation
 - 5.9 Spacers
 - 5.10 Dose Counters
- 6 Dry Powder Inhalers
 - 6.1 Introduction
 - 6.2 Size Reduction and Particle Formation Technologies
 - 6.3 Drug–Lactose Formulations
 - 6.4 Dry Powder Inhaler Design
 - 6.5 Exubera
- 7 Nebulizers
