

# TOXICOLOGIC PATHOLOGY

PAUL B. TCHOUNWOU<sup>1</sup> AND JOSÉ A. CENTENO<sup>2</sup>

<sup>1</sup>*Jackson State University, Jackson, Mississippi*

<sup>2</sup>*Armed Forces Institute of Pathology, Washington, DC*

## Contents

- 1 Introduction
  - 2 Toxicologic Pathology of the Cell
    - 2.1 Introduction
    - 2.2 Cellular Responses to Insult
    - 2.3 Cell Death
    - 2.4 Carcinogenesis
  - 3 Chemical-Induced Toxicologic Pathology and Organ-Specific Responses
    - 3.1 Arsenic-Induced Health Effects
    - 3.2 Mechanisms of Arsenic-Induced Toxicologic Pathology
    - 3.3 Arsenic-Induced Keratosis
    - 3.4 Arsenic-Induced Skin Cancer
    - 3.5 Arsenic-Induced Liver Cancer
    - 3.6 Arsenic-Induced Kidney Cancer
    - 3.7 Arsenic-Induced Bladder Cancer
    - 3.8 Arsenic-Induced Lung Cancer
    - 3.9 Arsenic-Induced Gastrointestinal Cancer
    - 3.10 Arsenic-Induced Brain Cancer
  - 4 Radiation-Induced Toxicologic Pathology
    - 4.1 Ionizing Radiation and Ultraviolet Radiation
    - 4.2 Nonionizing Radiation
  - 5 Conclusion
- Acknowledgments
- References
