

**Microscopy for
Identification
of Botanical
Raw Materials**
Uses and Limitations

Introduction58
Use of Authoritative Microscopic Characterizations58
Five Criteria for Authoritative Characterizations.58
Examination of Closely Related Species 64
Use of Whole Materials versus Powders66
Microscopic Characterizations of Novel and
Nonauthenticated Materials67
Case History of Adulteration: Mistaken Identity of
Hoodia gordonii.68
Microscopic Examination of Unknown Materials.68
Botanical Reference Materials.69
Computer-Aided Microscopic Identification of
Botanicals.72
Quantitative Microscopy72
References and Bibliography73
