

Liliflone (84-20)

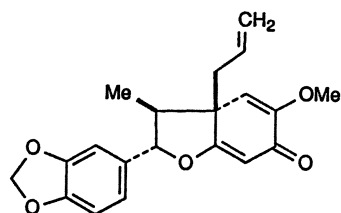

Liliflodione (84-21)

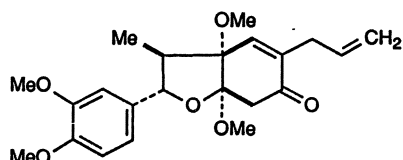

Denudatin A (84-22)

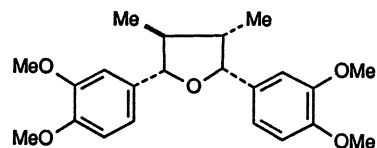

Denudatin B (84-23)

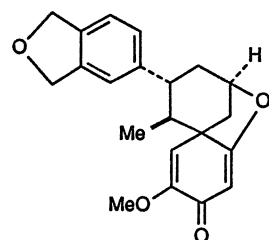

Burchellin (84-24)

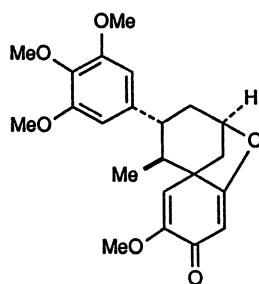

Piperenone (84-25)

Veraguensin (84-26)

Futoenone (84-27)

Denudatone (Maglifloenone) (84-28)

84.3 Pharmacology

Magnolol and honokiol exhibited significant activity against gram-positive bacteria and fungi [30]. The ether and methanolic extracts with the active principles magnolol and honokiol showed potent antibacterial action against a cariogenic bacterium
