## ONCOLOGY

**ALKYLATING AGENTS:** altretamine (*Hexalen*), bendamustine (*Treanda, Bendeka*), busulfan (*Myleran, Busulfex*), carmustine (*Gliadel, BiCNU*), chlorambucil (*Leukeran*), cyclophosphamide, dacarbazine, ifosfamide (*Ifex*), lomustine (Gleostine), mechlorethamine (*Mustargen*), melphalan (*Alkeran, Evomela*), procarbazine (*Matulane*), streptozocin (*Zanosar*), temozolomide (*Temodar, ✱ Temodal*), thiotepa (*Tepadina*). **ANTIBIOTICS:** bleomycin (✱ *Blenoxane*), dactinomycin (*Cosmegen*), daunorubicin (✱ *Cerubidine*), doxorubicin liposomal (*Doxil, Lipodox 50, ✱ Caelyx*), doxorubicin, non-liposomal (*Adriamycin*), epirubicin (*Ellence, ✱ Pharmorubicin*), idarubicin (*Idamycin*), mitomycin, mitoxantrone, valrubicin (*Valstar, ✱ Valtaxin*). **ANTIMETABOLITES:** azacitidine (*Vidaza*), capecitabine (*Xeloda*), cladribine, clofarabine (*Clolar*), cytarabine (✱ *Cytosar*), cytarabine liposomal (✱ *Depo-Cyt*), decitabine (*Dacogen*) floxuridine (✱ *FUDR*), fludarabine (*Fludara*), fluorouracil (*Adrucil*), gemcitabine (*Gemzar*), hydroxyurea (*Hydrea*), mercaptopurine (✱ *Purixan*), methotrexate, nelarabine (*Arranon*), pemetrexed (*Alimta*), pentostatin (*Nipent*), pralatrexate (Folotylin), thioguanine (*Tabloid, ✱ Lanvis*).

**CYTOPROTECTIVE AGENTS:** amifostine (*Ethyol*), dexrazoxane (*Zinecard, Totect*), mesna (*Mesnex, ✱ Uromitexan*), palifermin (*Kepivance*). **HORMONES:** anastrozole (*Arimidex*), bicalutamide (*Casodex*), cyproterone, (✱ *Androcur, Androcur Depot*), degarelix (*Firmagon*), estramustine (*Emcyt*), exemestane (*Aromasin*), flutamide (*Eulexin, ✱ Euflex*), fulvestrant (*Faslodex*), goserelin (*Zoladex*), histrelin (*Vantas*), letrozole (*Femara*), leuprolide (*Eligard, Lupron, Lupron Depot*), nilutamide (*Nilandron*), raloxifene (*Evista*) toremifene (*Fareston*), triptorelin (*Trelstar Depot*). **IMMUNOMODULATORS:** aldesleukin (*Proleukin*), BCG (*TheraCys, Tice BCG, ✱ Oncotice, ✱ Immucyst*), everolimus (*Afinitor*), interferon alfa-2b (*Intron-A*), lenalidomide (*Revlimid*), temsirolimus (*Toriseh*), thalidomide (*Thalomid*).

**MITOTIC INHIBITORS:** cabazitaxel (*Jevtana*), docetaxel (*Taxotere*), ixabepilone (*Ixempra*), paclitaxel, vinblastine (*Velban*), vincristine, (*Vincasar*), vinorelbine (*Navelbine*).

**MONOCLONAL ANTIBODIES:** alemtuzumab (*Campath, MabCampath*),

bevacizumab (*Avastin*), cetuximab (*Erbix*), ibritumomab (*Zevalin*), ofatumumab (*Arzerra*), panitumumab (*Vectibix*), rituximab (*Rituxan*), trastuzumab (*Herceptin*).

**PLATINUM-CONTAINING AGENTS:** carboplatin, cisplatin, oxaliplatin (*Eloxatin*).

**RADIOPHARMACEUTICALS:** samarium 153 (*Quadramet*), strontium-89 (*Metastron*).

**TOPOISOMERASE INHIBITORS:** etoposide (*Etopophos, Toposar, ✱ VePesid*), irinotecan (*Camptosar*), teniposide (✱ *Vumon*), topotecan (*Hycamtin*)

**TYROSINE KINASE INHIBITORS:** dasatinib (*Sprycel*), erlotinib (*Tarceva*) gefitinib (*Iressa*), imatinib (*Gleevec*), lapatinib (*Tykerb*), nilotinib (*Tasigna*), pazopanib (*Votrient*), sorafenib (*Nexavar*), sunitinib (*Sutent*). **MISCELLANEOUS:** arsenic trioxide (*Trisenox*), asparaginase (✱ *Kidrolase*), bexarotene (*Targretin*), bortezomib (*Velcade*), leucovorin, (*folinic acid*), levoleucovorin (*Fusilev*), mitotane (*Lysodren*), pegaspargase (*Oncaspar*), porfimer (*Photofrin*), rasburicase (*Elitek*), romidepsin (*Istodax*), tretinoin (✱ *Vesanoid*), vorinostat (*Zolinza*).
